

YOUR NOVEMBER ZONE 9 GARDEN CHECKLIST

KEY TASKS FOR A PRODUCTIVE FALL GARDEN

One weekend in the garden? Focus on these essential November tasks.

☐

PLANT NOW

Garlic, carrots, radishes, beets, turnips, peas, spinach, and other cool-season crops suited to your location.

☐

GET ESTABLISHED

Transplant cabbage, broccoli, cauliflower, kale, collards, and lettuce.

☐

ADD SEASONAL CROPS

Plant strawberries and regionally appropriate onion varieties.

☐

KEEP PRODUCING

Harvest lettuce, kale, collards, herbs, and other established fall vegetables.

☐

SUCCESSION PLANT

Sow small amounts of radishes, carrots, lettuce, spinach, and other quick-growing crops.

☐

WATCH THE WEATHER

Monitor frost forecasts; keep protective coverings ready for vulnerable plants.

☐

INSPECT FOR PESTS

Check brassicas for caterpillars, aphids, and other insects.

☐

ADJUST IRRIGATION

Water less often when soil stays moist, but keep germinating seeds consistently watered.

☐

PREPARE FOR DECEMBER

Remove spent plants, replenish mulch, maintain beds, and plan winter vegetables.
